Continuing **to bring you the best**

ECN continues to seek out the most innovative and forward-thinking manufacturers from across the world to ensure your customers keep coming back. We are seeking new products, superior quality materials, and exciting new avenues of interest to satisfy our customer's ever-growing desires. Our commitment to customer service continues to provide unparalleled access to the best brands in the market. And we are always looking at ways to become even better at meeting our customers' needs. Which includes a commitment to helping our customers sell, through both in-store and external marketing and advertising.

After 25 years of serving, the ECN brand continues to evolve.

The image shows the letters 'e', 'c', 'n' in a custom serif font. The letters are white and set against a dark background with a grid of thin white lines. The 'e' and 'c' are lowercase and circular, while the 'n' is lowercase and has a distinct serif. The letters are surrounded by various geometric shapes like circles and squares, indicating the design process.

ECN LOGO REFRESHED: This custom-crafted and bespoke serif font has been designed by an internationally award-winning illustrator. The curvature and angles of each letter is designed to reinforce the quality that lies at the heart of the ECN brand.

The image features a large, light gray '25' in the background, with the '2' and '5' overlapping. In the foreground, the letters 'ecn' are written in a bold, black, lowercase serif font. The 'e' and 'c' are circular, and the 'n' has a distinct serif.

WELCOME TO OUR 2020 VISION: after 25 years, ECN's business is mature and established and its logo deserves a serif. Anchored by the N, buttressed by the moon-shapes of the E and the C, the lower-case, circular font reflects the ease and the confidence of ECN's business. Reflective of the night and redolent of primal celebrations under a full moon, ECN's logo is seductively audacious, and yet sufficiently versatile to sit easily alongside the superior brands that ECN promotes.

Welcome to the next quarter century.

ECN'S SILVER ANNIVERSARY SEAL:
Again, a custom and distinctive seal,
presented as a coin or celebratory
stamp. The feel is modern and bold.

Honoring a quarter century of service.

This year we celebrate ECN's 25th year in business helping shape our community, support our customers and nurture our employees.

What began as a small distributor in 1995 has risen to stand tall as the industry's leader with office locations in California, Florida, and New York. Over the years, ECN has attained countless achievements and this past year proved to be exceptionally productive for the continued growth and success of our company. We certainly could not have come this far without the steadfast devotion and hard work of each member of the ECN family. Our employees play a vital role in the success of our company. Their enthusiasm, dedication and innovative approaches have propelled us forward and we are immensely grateful for their invaluable contributions. Our success story remains incomplete without mention of our customers and partners who have trusted us to provide value-added services. Their expectations, challenges, and feedback have driven us to push ourselves to do better each day.

As always, it's our pleasure.
